

HIGH PERFORMANCE POST FRAME

PROJECT VISION WORKBOOK

Building Better Starts With Understanding Your Vision

Thank you for choosing High Performance Post Frame.

This workbook is designed to help us understand your goals, priorities, lifestyle, and expectations before design begins.

There are no right or wrong answers.

The more information you provide, the better we can tailor the project to your needs.

PROJECT INFORMATION

Project Name:

Project Address:

Date:

YOUR PROJECT

What type of project are you considering?

- Custom Home
 - Barndominium
 - Shouse
 - Shop
 - Commercial Building
 - Addition
 - Existing Building Renovation
 - Other
-
-

YOUR VISION

Describe your ideal project.

What does success look like?

If everything went perfectly, what would you be most excited about when the project is complete?

What are your biggest concerns?

- Budget
- Timeline
- Design

- Comfort
 - Energy Costs
 - Maintenance
 - Contractor Communication
 - Building Performance
 - Other
-
-

HOW WILL THE BUILDING BE USED?

Check all that apply.

- Full-Time Residence
 - Vacation Home
 - Retirement Home
 - Personal Shop
 - Business Shop
 - Equipment Storage
 - RV Storage
 - Hobby Space
 - Office
 - Commercial Use
 - Mixed Use
 - Rental Property
-

Describe how you plan to use the building.

LIFESTYLE & DAILY LIVING

Describe a typical day.

How will you interact with the building?

How many people will regularly use the building?

Adults:

Children:

Employees:

Guests:

Do you entertain frequently?

Yes

No

If yes, describe:

Do you work from home?

Yes

No

If yes, what requirements should we consider?

FUTURE PLANNING

How long do you expect to own this property?

Less than 5 years

5-10 years

10-20 years

Forever

Do you anticipate future expansion?

Yes

No

If yes, describe:

What features would you regret not including?

DESIGN PREFERENCES

What architectural styles appeal to you?

Mountain Modern

- Modern
 - Contemporary
 - Farmhouse
 - Rustic
 - Industrial
 - Traditional
 - Other
-
-

Please describe the overall feel you want.

- Warm & Cozy
 - Clean & Modern
 - Rustic
 - Luxury
 - Minimalist
 - Traditional
 - Bright & Open
 - Other
-
-

What are your favorite materials?

- Wood
- Metal
- Stone

Concrete

Glass

Other

COMFORT & PERFORMANCE

How important are the following?

1 = Not Important

5 = Extremely Important

Indoor Comfort

1 2 3 4 5

Energy Efficiency

1 2 3 4 5

Low Utility Bills

1 2 3 4 5

Indoor Air Quality

1 2 3 4 5

Noise Reduction

1 2 3 4 5

Durability

1 2 3 4 5

Low Maintenance

1 2 3 4 5

Long-Term Value

1 2 3 4 5

Would you like to learn more about:

- Triple-Pane Windows
 - Rockwool Insulation
 - Rain Screen Assemblies
 - Hydronic Floor Heating
 - Passive Solar Design
 - ZIP R Systems
 - Smart Vapor Control Layers
 - High Performance Building Enclosures
-

SITE CONSIDERATIONS

What attracted you to this property?

What views should we preserve?

What areas receive the best sunlight?

What site challenges concern you?

PROJECT PRIORITIES

Rank the following in order of importance.

- Budget
 - Design
 - Comfort
 - Durability
 - Energy Efficiency
 - Schedule
 - Low Maintenance
 - Resale Value
 - Flexibility
 - Long-Term Performance
-

INVESTMENT EXPECTATIONS

What budget range are you currently considering?

- Under \$250,000
 - \$250,000–500,000
 - \$500,000–750,000
 - \$750,000–1,000,000
 - \$1,000,000+
-

Would you rather:

- Minimize upfront cost

Balance cost and performance

Maximize long-term value

FINAL THOUGHTS

What should we absolutely know before beginning design?

HIGH PERFORMANCE POST FRAME

Design.

Engineer.

Perform.

Build Better.

Building Science Driven Design-Build
